## REPORT OF SCHOOL BOARD.

---

*To the Citizens of Loudon :*

The school board submit the following report :

We are pleased to report to you that our schools we believe have been very successful. With interested parents, scholars and teachers, nothing but good results can be obtained by united effort.

We have been able to give you twenty-nine weeks of schooling during the year. We have raised the pay of some teachers in order to retain them. We believe a good teacher is cheap at any reasonable price, where a poor teacher is cheap at any price.

The interest of parents and citizens is on the increase, which we are glad to mention, four hundred and twenty having visited our schools during the past year against three hundred and seventy the previous year.

While we are able to give so good a report of our schools, let us as parents and citizens not relax our interest in the education of our children, but in the future try harder and give them the best advantages possible, knowing that in them is the hope of the world.

## REPORT OF SCHOOL BOARD.

---

*To the Citizens of Loudon:*

We submit to you our annual report.

Your board has tried to employ experienced teachers, and with a few exceptions our teachers have been those that have had years of experience.

It is more difficult to secure able teachers than in the past, even with an increase in their salary.

Our children in the country towns should have as high grade teachers as the city schools, and then we should expect more of our scholars to take advantage of the law requiring towns "not having a high school or academy to pay the tuition of all children attending high schools."

Our future depends on the high morals we constantly keep before the minds of our youth. With morality, health, industry, and an educated mind and hand all things can be overcome.

Most of our schoolhouses are in a respectable condition on the outside, but many are sorely in need of new floors and desks, and we trust some move will be made to have modern desks put in all schoolhouses that have not got them.

We wish not only parents but all citizens would try and encourage our children to obtain an education, for "knowledge is power."
